

MISSION POSSIBLE GRANTS

Making incredible care possible

Mission Possible associate grants are designed to encourage creativity, problem-solving and unique contributions to support innovative solutions in the workplace.

Mission Possible grants will be awarded for projects up to \$5,000 with a focus in the areas of impact and innovation. Projects should enhance patient experience and/or provide creative approaches to improving efficiencies in the work environment.

Funding eligibility

Any department or program within Ascension Wisconsin is eligible to apply. Applications must include a completed funding request, program budget or equipment quote and documented approval of department leadership.

Mission Possible grants do not fund replacement or repair of existing equipment, capital projects and equipment, staff certifications or Non-Ascension entities or individuals.

Grant process

Mission Possible associate grants recognize and celebrate groundbreaking ideas or processes that push the boundaries of what is possible. These awards highlight innovation as a key driver of progress and success, encouraging a culture of forward thinking. Applications will be reviewed by a committee of associates in March, June, September and December. Awarded funds are allocated through a department reimbursement process.
